FOR THE TRUE BOOK'S LOVERS...
... follow our instructions and go to the indicated places to experience the story of the Little Prince in real life !

Open your eyes and watch through your children soul. Do you see a hat ? 28
Our aviator could see a boa snake which swallowed an elephant.

As he was flying above the desert of the Sahara 16, his plane 20 broke apart 4.
He was falling in despair as he heard a small voice saying "please, draw me a sheep" 18.
It was the Little Prince, who just arrived from his planet, the asteroid B612.

He left his beloved rose 33, took care of his volcanoes 24 and flew away 6 to enjoy a fantastic journey from planet to planet 22.
He met a king 1 who reign above everything, a drunkard 2 who drank his grief.
The geographer advised him to land on earth 5, which had a great reputation.
In the middle of the desert, he made acquaintance with a mysterious snake and with a fox 30, which he tamed and became befriended with 13.

He knew many adventures and traveled a lot 12.
With his new friend the aviator, he discovered a well 26 and drank its water.

But the melancholia was too strong and the little Prince wanted to travel back to his planet and the snake of the desert 3 gave him his very last trip to be reunited with his beloved rose.

duration of the circuit : 2h
